

## ZipScreens™

By Specialized Shading Systems

The next big thing in innovative shading solutions

- The ZipperLock holds the fabric in tension at all times as zippered shades traverse the side channels
- No-light fabrics for exceptional blackout
- Ideal for skylights, inclined elevations or horizontal planes
- Interior or exterior applications
- Self-squaring track system compensates for out-of-square openings
- Energy efficient
- Shade cloth held securely in track system even on windy days
- Top-down, bottom-up, horizontal options
- Solar screen fabrics available in a variety of colors and openness
- Avoid issues associated with traditional side channels

A state of the art solution for windows and skylights of any angle!
