Where being outside becomes outdoor living

Outdoor living, all year round...

Think back to your best memories with friends or family. There's a good chance you were outside at the time. When surrounded by nature and breathing in fresh air, we experience unforgettable moments together. Connecting with nature and each other in total comfort. This is the power of an outdoor experience tailored to your needs.

Why outdoor living?

We spend more and more time inside, and that's a shame because nature gives us energy. Outdoor living is oxygen, literally and figuratively. For adventure, discovery and ultimate relaxation. From a barbecue with friends, an inspiring brainstorm with colleagues, or some casual me-time. Exactly what you need in the moment. Surrounded by greenery, the world is at your feet.

Discover the magic of outdoor living and enrich your life.

Why a patio cover?

Reap all the benefits the great outdoors has to offer while still demanding modern comforts and protection against the weather. Why should you be limited to taking advantage of the great outdoors only on nice days? With a patio cover you can enjoy your garden all year round. Are you ready to enjoy a nice moment in the shade, or have your own place in the sun? A bladed roof allows you to choose when, whatever the weather. You can also add accessories and side elements as desired. This is how you create your ideal outdoor living space.

The advantages of a patio cover

Adding a patio cover to your home is making an investment in your life. What do we mean? We are happy to use six advantages of a patio cover to explain it to you.

Outdoor living for four seasons	Lasting added value	Architectural harmony	More space for living	Multi-functional and flexible	Atmosphere creator at your service
Enjoy your terrace in all weather conditions! With a terrace roof from Renson you are always sheltered against wind or too bright sun. But did you know that they also handle heavy rainfall effortlessly? Outdoor life without worries, 100% weatherproof.	Who doesn't dream of a modern outdoor living space for their home? A patio cover provides added value for you and your family, as well as for future buyers. The price of your home will rise, and your patio cover may even be decisive in closing the deal should you ever decide to sell.	An almost endless colour palette and extensive personalisation possibilities contribute to architectural harmony. The aluminium construction looks timeless. Finishing with screen fabric, wood, glass panels, etc. means you create the perfect match for your home. The result radiates visual tranquility.	Would you like to expand your home without demolition work and getting dust in the house? A patio cover is an ideal alternative to a renovation. Surrounded by the greenery of your garden or, if you prefer, attached to your home. You can fully furnish the garden room according to your wishes and needs and immediately enjoy your own oasis of peace.	From garden office to sports room, from outdoor kitchen to dance floor: a patio cover offers space for the most diverse activities. As such, you not only install more space, you also add a multi-functional room to your home. And what do you think about enjoying luxurious camping in your own back yard? Glamping without going anywhere.	A Renson patio cover means always having your fingers on the controls. You can control the roof blades, screens, music, lighting, heating and much more. This means you always have full control over the entire atmosphere. You can therefore create the right setting for whatever activity you choose and at any time. From vibrant and energetic to serene and relaxing.

Working towards your ultimate outdoor experience together

Maybe you already know exactly what you want your ideal patio cover to look like. Or maybe you are simply ready to invest in a practical outdoor space but do not yet have any specific ideas about inserts. In either case, your local distributor will be happy to work with you to achieve the outdoor living space of your dreams.

STEP 1: GET SOME INSPIRATION

The possibilities for your unique outdoor living space are virtually endless. Fortunately, you can discover them all at your own pace and any way you like. Browse through our catalogue, view the accessories via our website, or create your own design using the immersive configurator. You will always find a way.

STEP 2: FIND A DISTRIBUTOR NEAR YOU

The intuitive configurator guides you smoothly through the possibilities. Of course, we are also happy to offer personal advice in person. Our extensive distributor network means there will always be a Renson specialist close to you. Make an appointment for a visit to experience our outdoor range, optimise your set-up and turn your plans into reality.

STEP 3: RECEIVE YOUR PERSONALISED OFFER

The cost of your patio cover will be determined by the dimensions, finish, accessories and much more. Your distributor will provide a detailed, transparent yet watertight quote for your personal configuration. We will make sure everything is included in the quote price. It's the perfect way to avoid unwanted surprises.

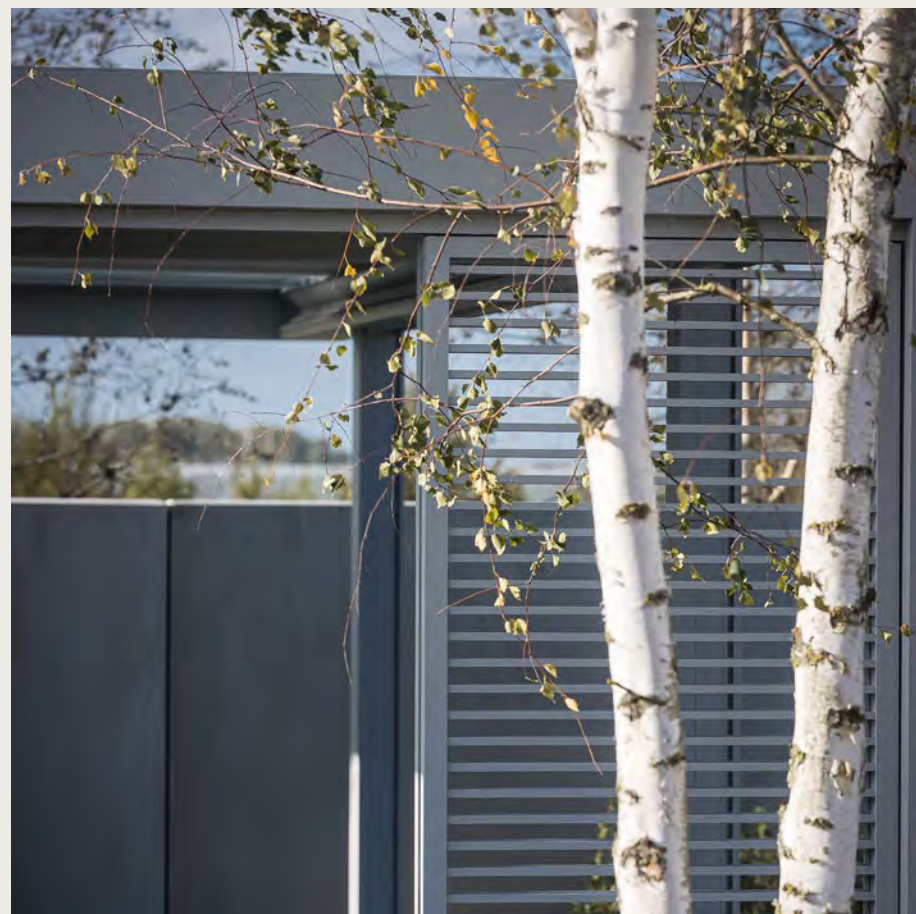

STEP 4: SAY YES TO YOUR DREAM

Are the details of your outdoor living space correct, and are the costs clear? If yes, you can quickly convert your quote into an order. Your Renson specialist will ensure everything is carefully customised during our production process and will give you clarity about the installation date. The thorough preparation and efficient installation mean your patio cover can normally be assembled in just one day.

STEP 5: ENJOY THE (OUTDOOR) LIFE

Your new multi-functional garden room will be ready for use after the installation day. Invite your friends, family or colleagues and start creating valuable memories together. Because every day can now be a party.

Inspiration

Multi-functional, warm and architectural.
All year round.
That's a Renson outdoor living space.
A green cocoon at home, or a pleasant outdoor space in nature
for customers or guests? Be inspired.

Design styles

Six complete outdoor design styles

You probably like to coordinate everything in your interior. At Renson, we set the bar just as high for your outdoor living space. We have worked with trend-watcher Hilde Francq to create six complete outdoor design styles in which the colours, textures and materials complement each other and even provide some reinforcement.

Hilde Francq started from two relevant colour trends. “The first group are the ‘new neutrals’. These are rather muted tones: chalky and terracotta shades, browns, as well as colours with a green undertone,” explains Hilde. “They can be used easily with natural materials such as wood and glass. In addition, brighter, optimistic colours can be used as accents.”

“We translated Hilde’s findings and expertise into six sociological trends and just as many complete style packages,” says Renson. “This helps you easily create a uniform look and feel around your home and in your garden. Choose a design style that suits your lifestyle and taste, and you will immediately get the entire palette of textures, materials and colours. This eliminates the stress of choice and guarantees a tasteful and harmonious whole.”

Discover the outdoor design styles on the following pages.

Earth Oasis

Earth Oasis leaves you with the impression that you're always on holiday. The warm earth tones evoke the feeling of summer. Natural and artisan materials connect you to the richness of the earth. They ensure perfect harmony between inside and outside and immediately transport you to sun-drenched distant regions.

Frame and blades RAL 8024
Fixscreen® SC 1006
Curtains Thick woven Savannah Yellow
Loggia Paro Wood
Loggia Canvas Desert Rock

DESIGN STYLES

Terracotta literally means “baked earth”. It has been used for vases and pitchers for centuries. This material is also fully on trend and enchants with its natural, artisan look.

Pure Essence

Light and space – that is Pure Essence. The pale colours and soft finishes give this style a feather-light, nearly ethereal feel. They create a place perfect for casting off your burdens, a space to completely unwind.

Pure Essence is all about the focus on the essential: sharing beautiful moments with friends and family, surrounded by nature. Leave your daily worries behind and choose pure enjoyment.

Frame and blades Beige Essence Retreat
Fixscreen® SC 2002
Curtains Refined woven White Corn
Loggia Paro Wood
Loggia Canvas Delicate Beige or Mixtrim 10 M0010

Idyllic Garden

Idyllic Garden takes you on a stroll through the garden. Sober greys and subtle greens inspired by plants give this style a contemporary look and ensure you can relax surrounded by nature. Green is the colour for which the human eye recognises the most variations.

Frame and blades RAL 7032
Fixscreen® SC 2050
Curtains Refined woven Planton
Loggia Paro Privacy Wood
Loggia Canvas Antique Bronze

DESIGN STYLES

Moreover, green has a relaxing effect. It's for that reason that we selected a varied palette of harmonious green tones for Idyllic Garden. An elegant, airy character with a Mediterranean touch is the result.

Spiritual Harmony

A minimalist style in a dark colour palette, that's Spiritual Harmony. We were inspired, among other things, by Japanese traditional architecture for the colours and materials. The result is an intimate contemporary architecture that balances body and soul and provides a protective, calming atmosphere.

Frame RAL 7021
Blades RAL 7021 or wood design walnut
Fixscreen® N-3006
Curtains Refined woven Beige Brown
Loggia Paro Wood
Loggia Canvas Deep Wood or Mixtrim 10 M0017

Drinking tea in Japan is an important ritual that takes several hours to complete and consists out of a precise sequence of meticulously executed steps. But you don't have to go that far to enjoy the experience. You can enjoy your daily cup of tea and take advantage of a moment of reflection. Experience the seasons – the energy of spring and the richness of autumn – like never before.

Crystal Lounge

Crystal Lounge is sleek and minimalist. The fresh green tones create an airy feeling, which is further enhanced by the light material palette. The result is a modern, light architecture that blurs the boundaries between inside and outside. It's perfect for those who love pure nature, fauna and flora.

Frame RAL 7035
Blades RAL 7035 or RAL 9010
Fixscreen® N-0207
Curtains Fine woven Jadeite
Loggia Plano RAL 7035
Loggia Canvas Crystal Teal
Glass sliding panels Matt glass

DESIGN STYLES

Garden rooms echo this sentiment, feeling like an endless full-length film, with nature in the leading role. Enjoy the play of sun between the branches, or how plants gently move with the wind.

Tech Cocoon

Tech Cocoon is radically contemporary and young, but with a warm side. Contemporary design converses with dynamic, playful colours such as soft coral. A feeling of pure transparency predominates, with an emphasis on technical materials such as glass and steel. Full of energy and as fresh as the scent of a freshly peeled citrus fruit – that’s Tech Cocoon. This refreshing style gives your garden room a bold urban look.

Frame and blades RAL 9010
 Fixscreen® N-0202
 Curtains Fine woven Ecru
 Loggia Plano RAL 9010
 Loggia Canvas Soft Coral
 Glass sliding panels

Tech Cocoon calls for young design with a certain flair. The degrees of soft coral to terracotta pink give this space a southern feel that is wonderfully relaxed. Sit back and wait for your Aperol.

Harmony in your garden

Your outdoor living space and home are not the only things that share their architectural appearance. Our garden elements let you extend that look and feel easily to your entire outdoor environment.

MODULO

Linarte Modulo is a versatile garden element. It serves as a customised storage and planter, but is also a garden bench at the same time. Easily customise the Linarte Modulo to suit your needs.

LINARTE® OUTDOOR LIGHT

Lighting is an undeniable mood maker, especially if it fits perfectly with your home and garden. Uniform LED modules with Linarte Even design add stylish lighting to your outdoor environment. Available in two heights and in four different versions, with one or two LEDs, and with or without a power socket.

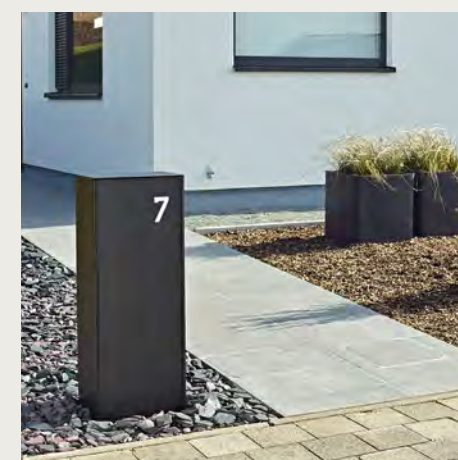

ICON

Add partitions or privacy walls with the Linarte Icon. This architectural wall is custom made. One side is covered with Linarte profiles, the other side is finished as desired with a tightly stretched Canvas fabric or with Linarte profiles.

eSafe® parcel letterboxes

eSafe develops stylish and practical parcel letterboxes for every type of customer and every type of building. eSafe's mission is to have letters and parcels delivered and collected at home 24/7. The number of personalisation possibilities offers architectural added value.

ESAFE DROPBOX SMALL

Mails and parcels are delivered from the top of the Dropbox to make the best use of the available space. The unit is given a stylish look as mail and parcels can be easily removed from the back.

ESAFE MAXUS

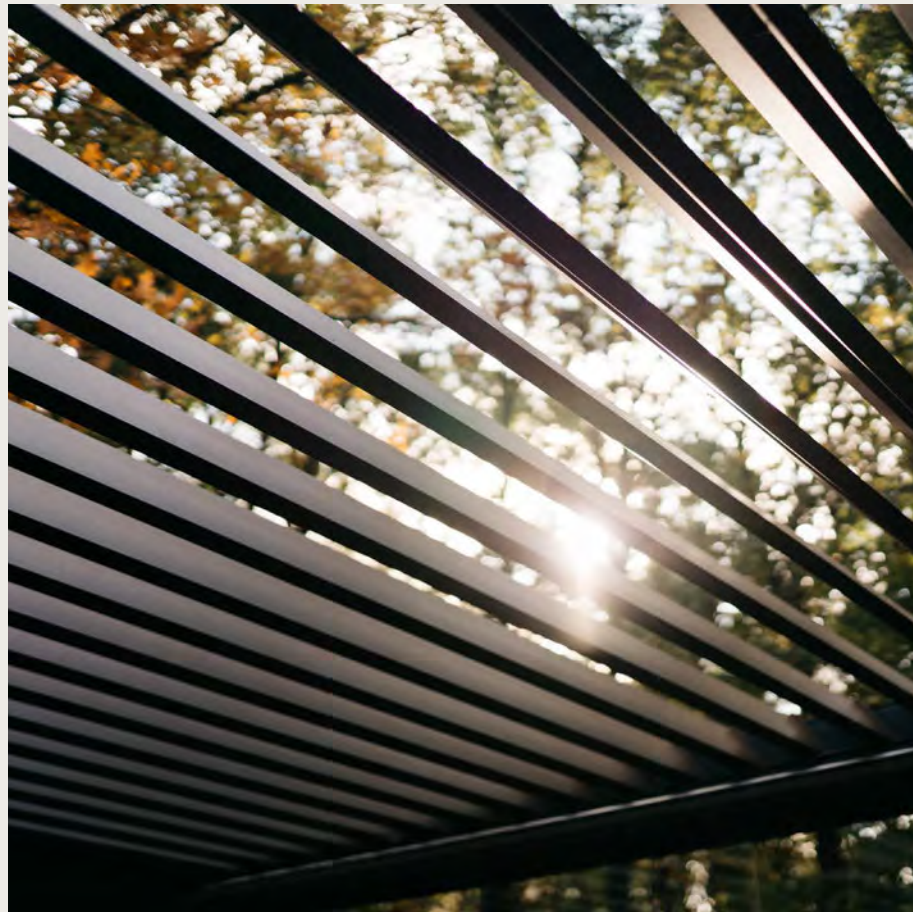

An elegant parcel mailbox with separate compartments for mail and parcels, and a wide range of customization options.

Why choose Renson?

About Renson

Creating healthy spaces

Since 1909, the Renson slogan and mission has been “Creating healthy spaces”. We do this by bringing everything you value from the inside to the outside and vice versa.

This is how our high-quality and versatile outdoor living range was created. By bringing the comfort of the inside outside, you can enjoy all the good things the outside has to offer, all year round. Our high-end outdoor living spaces combine sustainable materials with thorough design and almost endless personalisation possibilities. Maximum pre-assembly during the production process ensures smooth assembly on site.

Choosing Renson means choosing high-tech solutions, meaning you will reap the benefits of this for years to come.

115 years of
experience

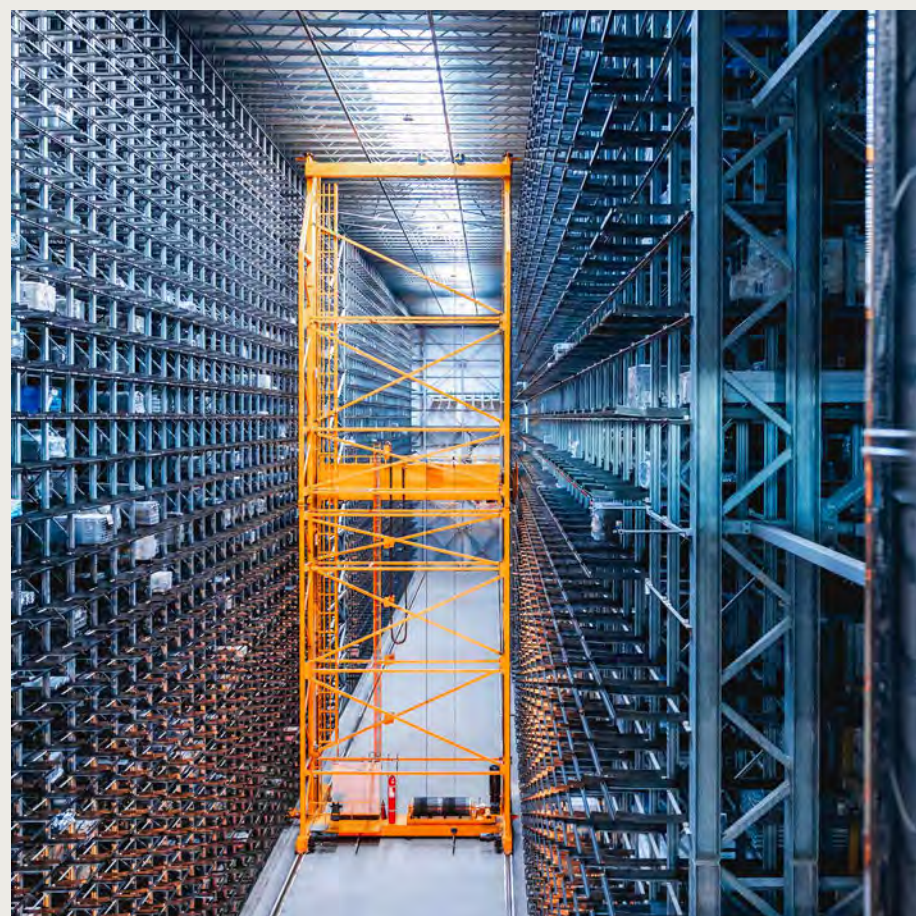

Uninhibited
innovation

Global distribution
network

Quality and
design

Sustainable custom design

Customised, personally decorated

Just like your interior, you probably want to be able to add your personal touch to your outdoor living space. This starts with a tailor-made patio cover, and also fits in perfectly with our “design styles” (see p. 57 of this catalogue). A finished outdoor living space also needs to fit your environment. To do this you can choose from countless colours and add natural-look materials such as wood and textiles. In essence, we offer you a “toolbox” with everything you need to design your ideal outdoor living space.

Durability at the forefront

The choice of using aluminium as the main material for the Renson patio covers is a conscious one. It sets the sustainable tone of our outdoor living story. Aluminium is resistant to natural weather influences and is fully recyclable. In addition, our designs are easily detachable, which contributes to a circular world.

And finally, our products are made in a state-of-the-art production site that runs on renewable energy and swears by minimum emissions. Automatic processes and manual pre-assembly complement each other perfectly. The result: a unique configuration with respect for high quality requirements and short lead times. After all, once you’ve ordered the outdoor living space of your dreams, you naturally want to be able to enjoy it as quickly as possible.

Minimum maintenance, maximal enjoyment

You can stay outside under your patio cover, even in harsh weather conditions. But how do you keep the structure in top condition if it is exposed to all kinds of weather? Let's start with the good news: our R&D team is keenly focussed on ease of use and maintenance. After all, the less time you have to spend cleaning, the longer you can sit back and enjoy it.

Renson Maintenance Set

The Renson Maintenance Set contains everything you need to maintain your patio cover and screen fabrics perfectly. The intense colours will be preserved and the aluminium structure protected against acid rain, sea air and UV-rays. One or two cleaning sessions per year are all it takes.

! Did you know...
...doing annual maintenance with our Maintenance Set entitles you to the extended fifteen-year paint guarantee?

The guarantee on a Renson patio cover

Every bladed patio cover is carefully developed, tested and custom-made from aluminium. The choice of materials and high-quality finish, together with professional placement by a recognised distributor, are your guarantee of quality.

Of course, we apply an official guarantee period to every product. The exact guarantee you are entitled to depends on the type of patio cover. A clear overview can be found below.
